

Flexkoblinger

Hvorfor bør du købe en R & D flexkobling?

- Den indsættes mellem eksisterende akselflanger
- Den behøver ingen tilpasning
- Den er let at installere
- Den gør check af oplygningen lettere
- Den nednætter støj og vibrationer

Alle flexible koblinger leveres med bolte og møtrikker, lige til at montere.

Koblingerne leveres standard isolerede, men vi kan levere et sølv-impregneret gummielement, som indsættes i koblingen mellem de to stålbjælker for at op-hæve isoleringen, hvis dette ønskes.

Motorens HK x gearreduktion x 100 = HK pr. 100 omdr.
Max. motoromdrejninger

○ Disse koblinger er monteret med bøsning for at styre ind i gearflange.

♦ Disse koblinger er godkendt af Bureau Veritas

▼ Flexkobling kræver adaptor for montage på gearflange.

X Disse koblinger er godkendt af Lloyds Register of Shipping

for Hurth HBW 150 V gear skal adaptor 202-151 bruges (22,3 mm lang)
